

WORKPLACE SAFETY & HEALTH MANAGEMENT POLICY

Workplace Safety & Health in the construction industry is extremely important for the smooth and efficient execution of works. Once neglected, it could lead to unnecessary loss of man-hours and hamper the progress of works, resulting in the delay of the entire project. CHINA JINGYE's management fully recognises this and thus considers safety of the workmen and the public as one of the most important aspects in construction.

It is the primary concern of CHINA JINGYE ENGINEERING CORPORATION LIMITED (SINGAPORE BRANCH) to attain a safe and healthy working environment at the work site. Safety is the responsibility of each and every person on the site. Safety should take precedence over expediency. Every effort will be made to obtain the full co-operation and participation of all workers in the project so as to promote a safe and conducive working environment.

Top Management committed to Workplace Safety & Health continual improvement and will take accountable & establish Workplace Safety & Health Management System to eliminating unsafe working conditions and practices so as to avoid the occurrence of accidents, injuries to persons, and damage to property. It also serves to protect the general public by providing guidelines to safe working methods.

The Project Manager, Engineers, Site Supervisors and Sub-Contractors have the primary responsibility on site for the safety and well being of the workers and public. This can be assisted by all Sub-Contractors promoting safe working practices among their employees and by maintaining all equipment in safe working condition. Supervisory staff will be responsible for ensuring that safe work practices are not overlooked at the construction site. Workers should at all times consider safety of themselves, fellow workers and the public.

We are committed to provide lifelong training and education programme to instil safety awareness to all concern to ensure work can be executed safely as we know that all our lives have immeasurable value, both to the company and to our families.

We are committed to provide adequate recourses to provide a safe working environment for our workers & employees.

CHINA JINGYE ENGINEERING CORPORATION LIMITED (SINGAPORE BRANCH) and all Sub-Contractors will continually improve to comply with the Workplace Safety & Health Act, its regulations and other statutory requirements for accident prevention. Top Management are committed to achieve Zero Accident rate and also for smooth and safe execution of the project and urges all personnel to aim for the same goals.

This policy shall be disseminated throughout the organization at all levels and understood by all employees & all relevant stakeholders.
